Task Chairs | Generation by Knoll®

The first chair that lets you sit how you want.

This award-winning office chair offers a new standard of comfort and unrestrained movement. Responding to ergonomic research, which challenges the idea that we only sit in a single forward-facing position, Generation is designed to support the range of postures and workstyles typical of today's workplace. Generation takes the idea of elastic design—where a product rearranges itself in response to its user—to a new level.

MultiGeneration by Knoll encourages collaboration with a responsive, open design that supports multiple postures and a diversity of people in shared, team and large group environments.
